Android Studio, Xcode

WORK EXPERIENCE

Next Big Technology(NBT)
Flutter Developer
12/2024 – Present | Jaipur, Rajasthan

Orbit X Media Private Limited
Flutter Developer
09/2024 -12/2024 | Assam

Levon Techno Solutions
Flutter Developer
02/2024 -08/2024 | Bangalore

PROJECTS

Cloude Bites Vendor

Live on Play Store & App Store : 05/2025

- Role: Flutter Developer (Frontend + API & Socket.io Integration)
- Vendor management platform handling user profiles, bookings, and payments
- Implemented real-time updates, push notifications, and smooth navigation using GetX.
- Integrated Socket.io for real-time communication between customers and vendors.

Woye Vendor Applications

- Role: Flutter Developer
- Developed a vendor application enabling businesses to register and manage their stores on the platform
- Implemented separate vendor registration flows for Pharmacy, Grocery, and Restaurant vendors based on business type.
- Built product management features allowing vendors to add, update, and manage product listings efficiently.

Woye User Applications

- Role: Flutter Developer
- Developed a multi-service user application supporting Pharmacy, Grocery, and Restaurant ordering in a single platform.
- Integrated REST APIs for product listing, order placement, and user account management.
- Integrated deep linking functionality to enable users to directly open specific products, categories pages from external links.

News & Articles App(Naukri Point)

Live on Play Store & App Store

- Developed a News & Articles mobile application (iOS & Android) that allows administrators to publish job-related articles and updates for users to browse and stay informed about new opportunities.

Talento In – Job Portal Mobile Application

Live on Play Store and App Store

- Developed a job portal mobile application connecting job seekers and employers on a single platform.
- Implemented separate user roles for job seekers and companies, enabling role-based access and functionality.
- Built features allowing companies to register, post job openings, and manage candidate applications through a dedicated dashboard.
- Implemented job seeker profile creation, enabling users to showcase skills, experience, and career preferences.

OPEN SOURCE PACKAGES

ImageX Flutter

A premium, unified image rendering widget for Flutter that replaces Image.network, Image.asset, CachedNetworkImage, and flutter_svg with automatic source detection, placeholders, shimmer, error builders, caching, and zoom viewers.

Version: v1.0.0
